panty hose/tights
socks
shoes
hangers

sweaters
fleece clothing
purses
thread/elastic

Heating oil
Asphalt (roads)

MISCELLANEOUS

propane
paraffin wax

jet fuel

ANYTHING PLASTIC!

NOTE: Petro=rock; (o)leum=oil (ROCK OIL)

Americans consume petroleum products at a rate of three and a half gallons of oil and over 250 cubic feet of natural gas a day for every man, woman and child, 365 days a year.

But Petroleum isn't used just for fuel.

Petroleum feedstocks provide us with many jobs and over 6,000 different products.

Most people are surprised to learn how many things petroleum is used for in daily life, as seen above.
